

UNITED STATES INTELLIGENCE BOARD
SECURITY COMMITTEE

SECOM-D-19
5 December 1974

MEMORANDUM FOR: [REDACTED]

Chairman, Ad Hoc Working Group, Personnel
Travel Restrictions

25X1

SUBJECT

: Request for CIA Report on Risk of Capture
Program

REFERENCE

: Your memorandum of 3 July 1974 to Chairman,
Security Committee, USIB

1. Attached is a report on the CIA Risk of Capture Program which you requested.

2. The CIA member of the Security Committee informed that the CIA feels the report represents an accurate, formal statement of both the general philosophies and most of the specifics of the approach to this subject which the agency has evolved over the years.

3. However, he believes that prudence dictates against general circulation of the report throughout the intelligence community where different perspectives could lead to misapplication of the general principles cited, no matter how sound or valid they may be from our standpoint.

4. For this reason, the CIA suggests that its use be limited to background purposes in the pursuit of the Ad Hoc Working Group's basic tasking.
